Customer Desktop Audit – Response

1. Due to the high volume of requests from customers Kemfast Aerospace Limited has introduced a standard response to all customer's requests for desktop audits and/or requests for certificates, the size of these requests have varied from one to over 30 pages of information. This revised procedure will permit a quicker response whilst still maintaining the requirements of AS 9120:2005/ISO 9001:2000. The detail below has been compiled taking into consideration the type of information historically requested by customers.

2. **Scope and History** Kemfast Aerospace Limited is a UK registered company which was formed in 1998. Its core business is Aerospace related, primarily that of trading as a specialist "Stockist and Distributor of "Oils, Greases, Sealants, Chemicals, Composites, Metals, Welding & Braze Alloys, Rubber Seals, Filaments, Lamps, Consumables and Tooling to the Aerospace Industry with Full Traceability". Specifically this product support service is defined as being, Sales and consignment stock management, and marketing agreements. In early 2007 Haas TCM Group Inc (USA) acquired the assets of the company which now operates as a wholly owned subsidiary of Haas TCM Group Inc, with the two UK Managing Directors (Howard Bunn & Chris Wright) retaining operational control of the day to day business.

3. **Accreditation** Kemfast attained ISO 9001:2000 accreditation in 1998 and on the 8th August 2007 gained AS9120:2005 "Requirements for (Aerospace) Stockists/Distributors" accreditation. The awarding body is the British Standards Institute (BSI), the current accreditation expires 7th August 2010 and the company is subject to surveillance audits by BSI between now and then. As an AS 9120:2005 accredited company Kemfast Aerospace is fully compliant with that standard as well as ISO 9001:2000, therefore any questions you have that are taken from or related to the above standards can be answered with an affirmative response as appropriate to a stockist/distributor within our scope as shown on the AS 9120:2005 certificate.
